Use the details of your birthday to find your dinosaur name

1. Take the first syllable of your name → 2. Find your 'dino suffix' in the table below

(this is the first sound or 'beat' in your name)  
e.g. the first syllable of Victoria is 'Vic'

3. Put your syllable together with your 'dino suffix' to create your name

e.g. If Victoria is born in March, her dinosaur name would be Vic-ceratops

April	-pteryx
