Access performances

Polka run a variety of different access performances including:

**Audio
Described**

**British Sign
Language
(BSL)**

Interpreted
and Integrated

Captioned

Relaxed

Audio Described

An Audio Described performance offers live descriptive commentary of the show for blind or visually impaired audience members. The commentary can be accessed through a small earpiece (available to collect from Box Office before the show).

For most Audio Described performances, a Touch Tour is available. This is a chance to meet the cast, touch the stage and selected props, and gain a sense of what will be happening during the performance. Carers, companions, and family members are welcome. Touch Tours must be booked in advance with the Box Office.

A pre-show introduction will be delivered 15 minutes before the show and will be available on our website a few days before the performance.

British Sign Language (BSL)

BSL Interpreted performances feature an interpreter (usually located at the side of the stage) who will use British Sign Language to interpret the show live.

BSL Integrated performances feature actors or BSL interpreters who use British Sign Language as part of the action on stage.

These performances provide D/deaf or hard of hearing patrons with a way to access theatre using their first or preferred language of communication.

Our Box Office team will be available to advise on the best seating for these performances.

Captioned

These performances feature a digital screen located at the side of the stage, or above the actors' heads. This screen displays live captions of the performance in English.

Captioned performances are suitable for D/deaf, deafened or hard of hearing audience members, for those who might not speak English as their first language, and for those who feel they benefit from captions and subtitles.

Relaxed

Relaxed performances may benefit those with sensory sensitivities and first-time theatre goers who are unsure about how their child might respond to the theatre environment.

- Auditorium lights are kept on at a low level
- Loud sound levels, flashing lights, and haze (water vapour that looks like smoke) will be reduced or removed
- Audience sizes will be smaller
- A designated chill-out space is provided

Social story packs can be found on our website before the relaxed show. These contain detailed information about the venue and the show, including a breakdown of what to expect in each scene.

All performances at Polka offer a relaxed/chilled environment in which audience members are welcome to exit and re-enter the auditorium and react vocally to the performance should they need to.
